

We work with top financial service firms and ETP professionals who trust us with their ETP information needs.

ETP Resources is the definitive source for expert, exchange-traded products information – built on the founder’s 12 years of experience in ETP trading, development, regulation and marketing.

With ETP Resources data products you can immediately integrate the power of the ETP Directory® into your projects, large or small. Add up-to-date and accurate content to your projects in minutes – or develop a custom dataset with help from our experts.

## Solutions

### Comprehensive Coverage:

Information on all US-listed exchange-traded products, including histories and closed funds.

### Classification Breakthrough:

The ETP Taxonomy® classification system offers unprecedented transparency into U.S.-listed equity derivative securities.

### Accurate Data:

Our records, tables and fields contain product-specific accuracy that is lacking in other sources.

### Expert-Level Knowledge:

Get immediate access to industry veterans with a breadth of experience.

### Data Updates:

Daily updates for clients committed to compliance and success.

### Leverage Your Resources:

Skip exhaustive data collection, save time, money and valuable resources.

### Swift Computer Access:

FTP access or our newly developed secure website downloads.

### Enterprise and Custom Solutions:

Call on our experts to create custom solutions for your needs.

### About ETP Resources

ETP Resources, LLC is a privately held, financial information services company founded in 2009. The company provides reference data on U.S.-listed exchange-traded products to financial professionals.
